Зверніть увагу! В інтернеті – on the Internet

2.   **:** Lets divide into two groups: Optimistic these who think that social networks, computers and the Internet have more advantages and the Pessimistic – those who think that IT does no good.

==You are to make lists of advantages and disadvantages of computers and the Internet.==

Advantages

- Social networks give us communication, connections with a lot of people.
- Find new friends & meet new people.
- Great possibilities for advertisement & job search.
- The Internet provides the facility to get on-line education.
- Playing computer games is fun.
- The Internet is very useful. There is more information on it than in the world's biggest library.
- You can buy almost everything on the Internet without having to leave your home.
- Many people now work from home using a computer. They are called "freelancers".
- Computers are useful for office workers.

Disadvantages

- The information spread in social networks may be used by anyone, without users' even knowing it.
- Contact details may be used for spreading spam.
- People, who addicted to social networks spend there all their free time and don't pay attention to their families and friends.
- Computers are bad for your eyesight.
- Computers cut us off from the real world.
- A lot of computer games are very violent. There is a lot of shooting and killing.

- We don't think that children learn much from computers. They can't learn about life from a computer. And they can't do their homework if they play computer games all the time.

On-line shopping

3.   Our next task is to consider the advantages and disadvantages of on-line shopping. Also with the help of laptops and the Internet we will consider a site where you can do it.
Not many teenagers buy clothes or something else on the Internet. But on-line shopping will become more popular with young people in future.

here we have some advantages and disadvantages of on-line shopping.

Advantages	Disadvantages

The first is saving time. Shopping can be done at any time convenient for you, anywhere. E-shops work 24 hours a day and 7 days a week.	You can be deceived You can buy a "cat in a bag" or even pay money and don't get anything. This is often aided by good comments from non-existent buyers.
Secondly, saving money. Most often products are 10-30% cheaper	You have to wait for the goods
	Delivery takes from a few days to several weeks. You need to pay separately for it.
A large assortment. On the Internet, it's easy to buy exclusive clothes, brand clothes , goods from abroad, etc.	You can 't see the real product It is difficult to buy a product that you can't see, can't touch, turn it on.
Catalog On-line shopping makes it possible to search through catalogues to find goods you'd like to buy.	A risk There is a risk that you won't deliver the product, it will be defective, damaged, won't have the characteristics or equipment.

So, if you want to do shopping at e-shops, you need to follow some advice.

Some advice how to do On-line shopping

- ❖ Use proven and well-known e-shops;
- ❖ Check out the seller's registration and the nearest service center location;
- ❖ The site must clearly indicate the phone number, legal data, bank account number, email address;
- ❖ The e-shops must have reviews and a forum.
