### **Контрольный тест:**

#### **“My favourite film.”**

My name is Sandra. I am 18 years old. I'd like to tell you about my favourite movie. I like watching movies very much, especially at the cinema. Every time a new film comes out my friends and I go to see it. We have watched many films, but my favourite one is an American film called “Jurassic World” (29.05.2015). It is an adventure film. It is the fourth part in the Jurassic Park series.

The director of the film is Colin Trevorrow. The music is composed by Michael Giacchino. The actors Chris Pratt, Bryce Dallas Howard, Vincent D'Onofrio, Nick Robinson, Ty Simpkins, Omar Sy, Katie McGrath play the leading parts. I enjoy their superb acting. The director uses animation technique and special effects to make this film a worldwide attraction.

The main characters appeared on the island at the coast of Costa Rica. It is a real dinosaur theme park where ancient animals live. They were made by people who used blood of ancient insects. The organizers of the park wanted to demonstrate a new attraction. But it happened that the dinosaurs freed themselves. In result there were a lot of exciting adventures waiting the main heroes of the film.

I shall remember this film for a long time. If you haven't seen this film yet, I recommend it.
