# Why study abroad?

Have you considered studying abroad, but are not sure whether it's worth your time? If you ask anybody who has studied abroad, he or she will most certainly tell you that it is a life-changing experience and one of the most rewarding things he or she has ever done. Perhaps you're not certain what benefits you can reap from an extended stay in a foreign country. Below is just an account from a girl coming from China.

## 1. Read the following text, then fill in the gaps with the words provided

comfortable - culture - fifteen  
years old - gate - good -  
microphones - patience - school  
snow - students - studies - support  
- teachers - too much

Looking at the 1..... of Redland High School for Girls, there is nothing I can do about it, so I start to walk into the 2..... start to find the class room, and what lessons I have.

What a big change in my life! I am from Hong Kong and moved to England to study when I was 3..... Why I am here? The reason is simple, because my English is not good enough and my parents thought that I depended on them 4..... So my parents wanted me to have an opportunity to improve my English and grow up in England.

The first day I went to the new school I compared the English school with the Hong Kong school. What a different 5.....! Especially in my school in Hong Kong: the building, the uniform, the teachers, the lunch time, the weather, the students, activities. My new school is like a big domestic home, very 6..... and attractive, while my school in Hong Kong is just like several big tower blocks, it has six floors with three big sports fields. And there are about two thousands 7..... in my school, while here there are only about five hundred. The classes are smaller here. In Hong Kong we have at least thirty three students in each class, so teachers have to speak using 8..... as the classes are big. So I benefit from the small classes here, because I can study better and the teachers can look after the students. And the teachers have more 9..... here! The weather is different as well, it was the first time for me to see the beautiful snow last winter in Bristol, and I really enjoyed making a snow man with my cousin and played in the 10..... at the School.

Additionally, I am very impressed with the kindness of the English people. For example, if I need any help, they will 11..... me. I am also aware how polite they are. I know that coming to England is 12..... for my future.

Everybody has an aim, that's what people are looking forward to, to achieve the final goal. I am the same! And that's why I am here, with my **aim**: I will finish my 13..... in England, and return to Hong Kong to find a satisfactory job. By then I am afraid I will miss my friends and 14..... in England. <http://www.redlandhigh.com/default.asp>
